

ONLINE GLOBAL LECTURE

📅 7 April 2026

“Together for Health. Stand with Science through the lens of Church and Diaconia.”

“Together for Health. Stand with Science through the lens of Church and Diaconia.” calls us to reflect on the shared responsibility of faith communities in promoting holistic health in a rapidly changing world. “Together for health. Stand with science” is the WHO theme for World Health Day 2026. In a time where scientific knowledge continues to shape public health responses, churches and diaconal institutions are invited to engage constructively with science while remaining rooted in compassion, justice, and human dignity. This lecture explores how faith-based actors can bridge the gap between science and society, fostering trust, addressing misinformation, and supporting equitable access to healthcare. Participants will be encouraged to examine the complementary roles of theology, science, and community action in advancing sustainable health for all, through both critical reflection and practical engagement.

📅 7 April 2026

🕒 10:30 am – 12:00 pm CEST

📍 online on Microsoft Teams

Local Times

10:30 – 12:00 CEST

09:30 – 11:00 WAT

10:30 – 12:00 CAT, SAST

11:30 – 13:00 EAT

14:00 – 15:30 SLST

15:30 – 17:00 WIB
