### *What does women’s leadership in the church look like across cultures?*

In this online event, experts from Germany, Indonesia, and DR Congo share stories of struggle and change: from reluctant acceptance of women pastors in Germany, to the GKE in Indonesia where women and men have been ordained equally from the start, to Eastern Congo where the CBCA still resists ordination for women – while women continue to serve in ministry amid the added challenges of a war zone. Discover how history, culture, and faith shape the voices of women in ministry today.
